I. SOLAS VI/2 Procedure:

Effective July 1, 2016, the International Maritime Organization prohibits a Container from being loaded onto a vessel without a verified gross mass (“VGM”) of the Container and cargo combined, as specified in SOLAS regulation VI/2. MTL utilizes weigh-in-motion scales when a truck enters MTL’s gates into the terminal. MTL determines the weight of the container and cargo by subtracting: (1) the average weight of the tractor; and (2) the average weight of a chassis, depending on whether the chassis is for a 20’ or 40’ container. If the equipment provider of the chassis has made the actual weight of the chassis available in MTL’s system, then MTL will utilize that filed chassis weight rather than an average weight. Maher calibrates its weigh-in-motion scales in accordance with New Jersey and federal law, as well as the manufacturer’s specifications. This method used by MTL complies with requirements under the U.S. Occupational Safety and Health Act, and the United States Coast Guard has advised that this method correspondingly complies with SOLAS Regulation VI/2.

Shippers, Beneficial Cargo Owners, and/or Steamship Line Carriers may use this Container weight, determined by MTL at its gate, for VGM purposes. MTL will use this weight as a VGM and load the Container on a vessel unless the Carrier instructs MTL not to load the Container, using the normal protocols to so advise MTL.

SECTION II

RULES AND REGULATIONS

TRUCK LOADING AND UNLOADING

1. DEFINITIONS

- A. Truck Loading – Shall mean the service of moving cargo from a place of rest on the terminal facility, elevating the cargo onto the truck and stowing of the cargo in the truck, but shall not include, among other things, special stowage, sorting or grading of, or otherwise selecting, the cargo for the convenience of the trucker or the consignee, nor the loading of cargo onto consignee’s pallets.
- B. Truck Unloading – Such service shall consist of removing cargo from the body of the truck to a place of rest on the terminal facility designated by MTL. Truck unloading shall be performed by MTL at the request of the motor carrier.

2. RIGHT TO LOAD AND UNLOAD TRUCK

- A. Truck loading shall be performed solely by the agents, servants and employees of MTL in accordance with the rules, regulations and practices contained in this schedule. Such services shall be performed with the assistance, and under the supervision, of the driver of the truck.
- B. Truck unloading shall be performed by MTL only upon request of the motor carrier, its agents, servants and/or employees; provided that there is sufficient labor readily available to MTL to perform said services at the time of said request and provided, further, that the cargo is so situated on the truck that said services may be rendered by MTL in one continuous operation, without interruption, until completion of the desired services. Said truck unloading services shall be performed under the supervision and direction of the driver of the truck.
- C. Only trucks properly registered and licensed will be serviced by MTL. Equipment used for truck loading and unloading will be furnished exclusively by MTL; no lift trucks, cranes, etc., other than those supplied by MTL, will be permitted on the terminal facility.

3. SAFETY

The motor carrier, shipper or consignee shall provide a vehicle, which is adequate and suitable for safe loading and unloading.

4. APPLICATION OF RATES

Rates are quoted in cents per 100 lbs., unless otherwise noted.

5. MISPLACED EQUIPMENT/CARGO BY A MOTOR CARRIER

Provide clerking, checking and draying services including equipment to locate and correct mis-parked equipment/cargo by a motor carrier\$233.65 per occurrence.

6. OTHER SERVICES

Nothing contained herein shall be construed as requiring MTL to perform, without charge, any service not specifically provided for herein.

7. HEAVY LIFTS

The handling of heavy lifts shall be limited to the capacity of MTL’s equipment at that terminal facility. The schedule rates set forth herein for other than heavy lifts are applicable to single packages weighing 10,000 lbs. or less.

Heavy lifts will be handled only at the discretion of MTL. Heavy lifts on other than open flat bed truck (OFBT) will be charged at triple the heavy lift rate, except that heavy lifts on freely moving wheels will be charged at the rates shown for heavy lifts on OFBT.

8. PAYMENT OF DETENTION PENALTIES TO MOTOR CARRIERS DELAYED AT THE CONTAINER TERMINALS

The payment of detention penalties by MTL to a Motor Carrier is not a matter of right, but rather as a matter of contract. The rules governing detention at MTL are set forth in this Schedule. Maher has no obligation to pay claims for detention except as provided herein. Effective March 1, 2007, electronic submission will be the only accepted method for filing trucker detention claims; paper invoices will not be accepted. Submission of claims for detention and acceptance of payments for detention from Maher constitutes acknowledgement by the claimant of actual knowledge of the rules governing detention by Maher including, but not limited to, the mandatory arbitration provision specified in said rules.

1. Free-time at Maher Container Terminal:

Containers processed between 0600 and 1200

- Single Moves.....150 Minutes
- Double Moves.....180 Minutes

Containers processed between 1200 and 1900 hours:

- Single Moves.....150 Minutes
- Double Moves.....210 Minutes

2. Lost Containers Lost containers on “Dry Run” only - \$100.00 Note: If driver elects to pick up another container single or double move – normal detention rules apply.
3. Computation of Time: Computation of time will be based upon the Motor Carrier’s arrival at the terminal, at the first point of processing. Terminal time will terminate when the Motor Carrier exits the outbound gate of the terminal, including Roadability.
4. Exclusions: MTL will not be responsible for delays caused by extreme temperatures, severe weather or delays resulting from the aftermath and cleanup required due to a severe weather occurrence. Additionally, MTL will not be responsible for delays caused by a disruption of power, telephone, shortage of containership line equipment, or data services such as those supplied to U.S. Customs, which are beyond the control of MTL. MTL will also not be responsible for delays on days when any one or multiple other container terminals in Port Elizabeth, Port Newark, or Bayonne are closed. Detention payments will not be paid under the following circumstances:
 - To motor carriers requiring genset mounting/dismounting to or from a container whether the container is full or empty.
 - Reefers processed after 1600 hrs.
 - On the day after a holiday.
 - Handling of over dimensional cargo.
 - Weekend and holiday gates.

The force majeure exclusions will not include delays due to failure(s) of MTL’s computer system. Motor Carriers have an obligation to utilize all of the technologies and services which are made available by MTL to pre-check or pre-clear a shipment prior to dispatching a driver to the terminal.

MTL will deny payments of detention penalties to Motor Carriers who fail to ensure availability of cargo prior to the arrival at the terminal or follow terminal procedures which result in delays to themselves or other Motor Carriers. Detention payments will not be paid to Motor Carriers arriving at the terminal facility with a bare chassis upon which they request a container that is already on a chassis, to be placed unless MTL has been given prior notification. All requests of this nature are to be submitted to the Container Yard, in writing, at least 24 working hours prior to the delivery of cargo. Detention payments will not be paid with respect to any transaction if the Motor Carrier requests assistance from MTL’s clerical service for such transaction, with the exception of transactions where assistance from MTL’s clerical services is required for an issue that could not have been avoided had the Motor Carrier ensured the availability of cargo/equipment prior to dispatching a driver to the terminal facility. If any employee, agent or representative of a Motor Carrier (or any other person with the actual or implied consent of the Motor Carrier) is found to have stolen, pilfered, or vandalized any chassis component(s) or other property belonging to MTL, its customers or other persons present on terminal with the consent of MTL, the Motor Carrier will be held fully responsible for the cost of repairing said equipment. The Motor Carrier will also forfeit its ability to submit any invoicing pertaining to trucker detention for 180 days. If a specific employee, agent or representative of a Motor Carrier is found to be involved with stolen, pilfered, or vandalized chassis components in

a second instance, that individual will be permanently barred from submitting any claims to MTL for detention.

5. Payment of Penalties: When the power vehicle is delayed beyond the allowable free time, MTL shall be charged at a rate of \$12.50 per 15 minutes or part thereof, or \$50.00 per hour. However, there shall be no penalties paid for detentions of less than twenty-nine (29) minutes. Claims shall be filed within seven (7) calendar days from the date on which the claim arose or said claim shall be barred. All requests for payment of detention must be individually specified on such forms and in such a manner as may be specified by MTL. All decisions by MTL regarding the payment or non-payment of detention are final.

6. Settlement of Disputes: All disputes arising pursuant to this provision shall be arbitrated pursuant to the Commercial Arbitration Rules of the American Arbitration Association.

- B. In addition, said cargo shall be responsible for the receipt and delivery labor costs incurred by MTL as a consequence thereof.
- C. If export cargo is removed from the Terminal and subsequently returns for vessel loading the redelivery gate charge and grounding and mounting charges will apply (see section A). Storage charges will be waived upon verification that the removed export booking loaded to Vessel.

7. RESPONSIBILITY FOR PAYMENT OF DEMURRAGE AND OTHER CHARGES

- A. Except as otherwise provided, Demurrage and other charges specified herein, shall be for the account of the cargo.
- B. Demurrage and other charges shall be due and payable when service is provided.
- C. MTL has the right to require payment in full of any and all such charges before such cargo leaves the Terminal.

8. CARGO RECEIVED PRIOR TO EFFECTIVE DATE OF SCHEDULE

All cargo for export which has been received prior, but still remains at a terminal facility on March 17, 2010, shall be deemed to have been received, as noted in the MTL equipment inventory computer system, for the purpose of applying this schedule as of said date and free time shall be allowed accordingly.

9. EXPORT ON TERMINAL

- A. Cargo which is not loaded on a vessel and remains at the Terminal beyond the expiration of Free Time, may be placed in public storage at any time thereafter, at the option of MTL and at the risk and expense of the cargo.
- B. Cargo remaining on the Terminal in excess of 30 days, will be considered as abandoned and sold for collection of Demurrage charges due MTL. At the time of sale, MTL makes no representation of the cargo. All bids are based on a view by the bidders of these contents. All bids are final. Thirty (30) days prior to such sale, a registered receipted letter or e-mail of notice will be sent to either the carrier or the shipper of record. Acknowledgement by the carrier and/or the shipper of record prior to the timeframe mentioned above overrides all mentioned requirements for the sale of the cargo. Any monies received beyond the charges due, will be returned to the shipper/carrier if claimed within one year of the mailed notice. If the sale process is prohibited or fails in any way as determined solely by MTL, abandoned cargo may be scheduled for destruction and all transportation and destruction costs shall be borne by the carrier that issued the bill of lading for that abandoned cargo.

Notwithstanding the foregoing if MTL, in its sole discretion, shall determine that any cargo remaining on the Terminal beyond the expiration of free time is: (i) subject to spoilage and/or (ii) subject to rapid devaluation due to the passage of time, then in either of such events such cargo may, at the sole option of MTL, be considered abandoned as of the expiration of free time and may be sold at any time thereafter by MTL without notice to the owner of record.

Nothing contained in this paragraph shall require MTL to investigate the nature of cargo remaining on its terminal beyond free time, to take any special actions to preserve such cargo or to take any of the actions contemplated in this paragraph. Nothing in this paragraph shall accord to the owner of record of any other person any right or claim against Maher for taking any actions permitted in this paragraph, for not taking any such actions or for delaying in the taking of any such actions.

The adjustment will be limited to a period of no more than 30 calendar days following expiration of normal Free Time. The adjustment will be limited to the chart below per day per dry container for the said 30-day period. 5. **CARRIER** expressly agrees that should such Bill of Lading provisions not extend the application of the COGSA defenses to the **CONTRACTOR**, the **CARRIER** will indemnify **CONTRACTOR** for those sums that it is liable for over and above the limitation of liability defenses.

6. When **CARRIER** accepts cargo on an *ad valorem* basis, the **CONTRACTOR** shall not be responsible for increased liability unless **CARRIER** gives written notice in advance to the **CONTRACTOR** in sufficient time for the **CONTRACTOR** to provide special handling and/or supervision; and extra charges therefore shall be agreed upon between the parties at the time such notice is given. Such notice shall include a description of the quantity, nature and location of the goods.
